BLIND MAN MADE PASTOR.

To Take Charge of a Baptist Church in Brooklyn.

NEW YORK, Nov. 21.—Charles A. Schlegel, who is totally blind, has been employed to take charge of the Euclid Avenue Baptist congregation, in Brooklyn.

Mr. Schlegel is only twenty-two years old, and has been blind since he was nine years of age. When he graduated from the Institute of the blind he took high honors in rhetoric, mathematics, and English letters. He will soon apply for ordination and admission to the ministry.

Mr. Schlegel's congregation tendered him a reception last night.

RING CONTEST A DRAW.

Uninteresting Fight Between Burns and Schreck.

CINCINNATI, Nov. 21.—Eddie Burns, of Detroit, and Mike Schreck, of Reading, fought their second draw last night before the Abbey Athletic Club of this city. The fight was rather tame, neither man being in danger of being knocked out at any time during the ten rounds.

Burns on points had all the best of the encounter, but, by an agreement that if both were on their feet at the end of the tenth round, it should be declared a draw, such a decision was rendered.

DIAMONDS IN FIRE RUINS.

Jewels Taken From Debris of New Yorker's Country Home.

NEW YORK, Nov. 21.—Search for the \$100,000 worth of diamonds in the ruins of Charles T. Barney's country home, which was destroyed by fire on Friday night last, at Southampton, L. I., has almost been completed.

Thus far thirty-one diamonds, a number of emeralds and other stones, and several watches have been recovered through the systematic sorting of the ashes by trusted men, under the direction of R. William Enoch, a friend of the family.

There now remain but eleven diamonds to be accounted for. No trace has been found of the beautiful pearls of which Mrs. Barney was so proud, and it is supposed they were destroyed in the flames.

LUTZ PRONOUNCED SANE.

Convicted Wife Murderer's Attorneys Admit There Is No Hope.

WILKESBARRE, Pa., Nov. 21.—District Attorney T. R. Martin received word today that the special lunacy commissioner who examined John Lutz, the wife murderer, at the request of the board of pardons, has reported that Lutz is perfectly sane.

For two years Lutz's attorneys have been fighting to save his life, but, on receipt of this news, they admitted there is no further hope for him.

Lutz is to be hanged on January 21, having been respite until then.

HOLIDAY STOCK BURNED.

Fire in Somerville, Mass., Causes \$20,000 Loss.

BOSTON, Nov. 21.—Fire in Somerville today destroyed the factory and storehouse of the New England Electric Manufacturing Company on Gotham Street with a great deal of valuable machinery and a large manufactured stock ready to be delivered for the holiday trade. The loss is \$20,000.

M. W. Carr, manufacturing jeweler, loses \$6,000. The buildings were worth \$3,000.

PROSPECTIVE HEIRS OF MRS. FLAGLER.

NEPHEWS IN A JUVENILE ASYLUM

Papers Filed to Show Their Right to Share in the Estate of Insane Aunt—Patient in Good Health.

NEW YORK, Nov. 21.—It was shown in papers filed in the Supreme Court yesterday that three children, who were turned over to a New York juvenile asylum and apprenticed to farmers in the West, are prospective heirs to a large part of the estate of Ida A. Flagler, formerly the wife of Henry M. Flagler, of the Standard Oil Company.

Mrs. Flagler, who was adjudged insane in the courts, is in the sanitarium of Dr. Carlos F. Macdonald, at Pleasantville, Westchester county. Her estate amounts to \$2,373,137, most of which is in Standard Oil certificates, and her income is more than \$100,000 a year.

The Legal Heirs.

It has not been set forth in any papers filed in connection with her estate that she executed a will before she became insane. It had until a few days ago been understood that her estate would pass to her three nephews and a sister on her death, on the assumption that Henry M. Flagler had cut himself off by procuring a divorce.

Her brothers are Charles F. Shrouds, of Boston, and Stephen E. Shrouds, of Brooklyn, and her sister is Mrs. Mattie A. Shrouds, of Pawlet, Vt. These three have recently learned that three children of a deceased sister are living.

The deceased sister was Mary Emma Taylor, wife of Edward W. Taylor of this city. Mrs. Taylor died in 1876, and soon after her death her three sons were surrendered to a New York juvenile asylum by their father. It does not appear if he is living.

The children were then aged eleven, nine, and five years. They were placed with farmers in the West, and have all grown up and married. They are George W. Taylor, Richard W. Taylor, and William W. Taylor.

Motion Not Opposed.

The discovery of these children was averred in the records by application of Mrs. Flagler's two brothers and sister to have allowances made to them from her estate, on allegations that the whole income is not required for her support, and that they are in need of the allowances.

Their applications were not opposed and Justice Clark made orders that each of them receive an income of \$2,000 a year from the estate of Mrs. Flagler. It was said that the proceeding is novel in that it assumes that Mrs. Flagler cannot remember to place her in a separate fund that she made no will before her insanity.

In another proceeding Justice Clark made an order that Dr. Macdonald receive \$5,000 yearly for his services as conservator of her person and \$25,000 a year for maintenance.

Patience's Health Good.

Mrs. Flagler has been at Pleasantville, since March 20, 1897. Dr. Macdonald claims he intends to remove her from this institution and place her in a separate residence suitable to her means. Her health is excellent, he says, and her mental condition is such as not to prevent her from enjoying her life. He claims she has never had anything but satisfactory comfort to which she was formerly accustomed.

The committee of her estate is Eugene M. Ashley.

A NEW RAILWAY POSTOFFICE.

Service Between Washington and New York to Be Improved.

Owing to the large increase in the mail, and complaints made by merchants an additional Railway Postoffice will be put between Washington and New York. The proposed additional Railway Postoffice will relieve the congested condition of the mail, and it will also make necessary the promotion and appointment of a number of railway postal clerks.

Recent promotions in the railway mail service have proved anything but satisfactory. It is said by many of the clerks who have years of service that the clerks of efficient service do not count any more, but that the clerk who can produce political influence receives the promotion.

This matter, it is said, will be brought to the attention of the Civil Service Commission.

BROUGHT SHIPWRECKED CREW.

British Seamen Arrive on the Steamer Ethelbrytta.

NEW YORK, Nov. 21.—The steamer Ethelbrytta, which arrived last night from Provincetown, brought seventeen men of the crew of the British steamer Arago, which went ashore on Alacran's Shoal September 14.

The Merritt Wrecking Company is trying to get the steamer off. The Arago was coal laden, bound from Baltimore for Vera Cruz.

CAUSE OF DEAFNESS.

The Most Common Cause Only Recently Discovered.

It has been stated on good medical authority that nine-tenths of cases of deafness are caused from catarrh or from some throat trouble.

The little tube which leads to the ear from the throat is lined with a sort of mucous membrane, and this membrane is simply a continuation of the mucous membrane lining the throat. When disease of any sort attacks the mucous membrane of the throat it is very liable to extend into the Eustachian tube and up into the ear.

The history of nearly all cases of deafness is like this: A cold is contracted and neglected, other colds are taken, the throat becomes sore and inflamed, which is aggravated by particles of dust and germs from the air. This condition causes the disease to spread into the tube that leads to the ear.

It seems a little far-fetched to say that most cases of deafness are caused from catarrh, but it is certainly true, and anyone who has had a severe catarrhal cold will have noticed how the hearing was affected while the cold lasted.

With catarrh suffers this impairment of hearing becomes chronic and grows worse. The catarrh is neglected.

You can cure catarrh at once by the regular use of an excellent new preparation called Stuart's Catarrh Tablets. It is composed of desiccated remedies which act not only on the mucous membrane but principally and most effectively on the blood, eliminating the catarrhal poison from the system.

People whose hearing is defective may think it a little remarkable that a simple and harmless tablet would very often remove all traces of deafness, but when it is remembered that treatment of the deafness and that the catarrh is easily cured by the regular use of Stuart's Catarrh Tablets there is no mystery about it.

If you are subject to nasal catarrh or catarrh of throat, bronchial tubes, or catarrh of stomach and liver, the safest and most effective treatment is the new catarrh specific, Stuart's Catarrh Tablets, sold by all druggists at 50 cents, for full-sized package. No 21-25.

BLACKSNAKE PET CAUSES TROUBLE.

BITES AN OFFICIAL IN BALTIMORE

Mascot of the Health Department, Also Makes City Hall Annex Workmen Highly Nervous by Wandering About.

BALTIMORE, Nov. 21.—It is unusual to have a reptile for a pet. It is also dangerous. John H. Campbell, who is connected with the city's chemical laboratory on the third floor of the City Hall annex can testify to this.

The pet blacksnake of the Health Department bit him twice yesterday. This was the basest ingratitude, for Mr. Campbell was the reptile's best friend. By appointment he was custodian of the snake, and he had shown it many attentions and courtesies.

Mr. Campbell's wounds are not serious. But he will hereafter decline to supply the ill-tempered reptile with food.

An order will doubtless go forth today banishing the black snake from the Health Department. Building Inspector Preston has notified the officials that his men have registered strenuous objections to working in a building where a six-foot reptile prowls around at will like a strange cat. There are alterations to be made on the third floor of the building, but the artesian refuse to undertake it while the Health Board's queer pet remains there.

Dr. Fulton's Trophy.

The now unpopular black snake was captured in the wilds near Baltimore about three weeks ago by Dr. John S. Fulton, secretary of the State Board of Health.

It had become a great favorite with the attaches of the department. They looked upon it as a sort of mascot, and attributed all manner of blessings to its presence in the building.

The snake has occupied a waste-paper basket as sleeping quarters, but frequently went on trips of inspection in different parts of the buildings.

Found in a Waterpipe.

There was a commotion yesterday when the word was given that the mascot had disappeared. After a lengthy search it was found in a water pipe.

To settle the difficulty caused by the snake's attack on Mr. Campbell and its general unpopularity, Assistant Health Commissioner C. Hampson Jones will probably have the reptile removed from the building today.

TO SHOW LONDON SOMETHING.

Americans Plan a Great Exhibition in That City.

The United States is going to show England what it has done and can do. According to Consul General Osborne, who is stationed at London, there will be held in that city next year a great American exhibition, demonstrating what this country has accomplished in the line of art, industry, and invention.

The Consul General has transmitted a prospectus of the affair to the State Department. He says the exhibition will be held in the Crystal Palace, one of the largest and finest buildings in the British capital. The prospectus reads in part as follows:

"The American exhibition, 1902, is designed to demonstrate the immense commercial development which has taken place in the United States during recent years, and will be the largest and most important exposition of American products, arts, industries, and inventions yet seen in the United Kingdom."

"The increase of American exports for the past twenty years has been phenomenal, and the expansion in the character and variety of the trade is perhaps even more remarkable than the increase in its volume."

"With a population of over 80,000,000, and a climate ranging from Arctic Alaska to the tropical South—with its vast natural resources, and its great industrial wealth and activity—the United States offers a wider scope than any other individual country for a great national exhibition."

"The natural advantages of the Crystal Palace for the accommodation of great exhibitions are well known. The buildings cover about sixteen acres, all perfectly lighted, heated, and ventilated, surrounded by the most beautiful ornamental grounds of Europe, extending over 200 acres, and including the most extensive series of sports grounds in England for cricket, polo, football, baseball, cycle, and motor racing, tennis, swimming, and other athletic sports."

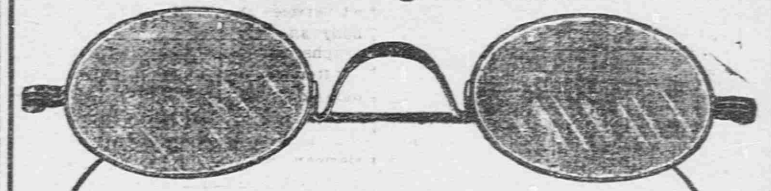

"The regular programme of entertainments, music, and sports, is like the annual attendance of visitors—upon a national centre of entertainment, will take the lead. No more auspicious time and place, therefore, could have been selected for a great exhibition, and it is felt that the directors have exercised a judicious choice."

"The year 1902 will be marked by an historical event—the coronation of King Edward VII. in the month of June—which will draw to London the greatest number of visitors from the provinces and abroad ever before."

"In the popular rejoicings and festivities which will take place throughout the Empire, the Crystal Palace, as the great national centre of entertainment, will take the lead. No more auspicious time and place, therefore, could have been selected for a great exhibition, and it is felt that the directors have exercised a judicious choice."

WIDOW REFUSES TO HELP GRAND JURY.

POISON FOUND IN HUSBAND'S BODY

Other Deaths in Her Family Said to Have Been Caused by Stomach Trouble—To Be Put on Rack Today.

MEMPHIS, Tenn., Nov. 21.—October seems to be the unlucky month for Mrs. Cerro Gordo Hooks. On October 27, 1898, she lost her first husband, W. H. Atkinson, through stomach trouble.

On October 9, 1899, she lost her second husband, Mr. Hooks, through stomach trouble.

On October 11, this year, she lost her third husband, Mr. Hooks, through stomach trouble.

The Body Examined.

Some friends of Hooks, who were curious coincidences, had the body examined, and found several ounces of powdered glass and arsenic in the stomach.

There is no telling who administered the poison. The grand jury is trying to find out, but Mrs. Hooks has refused to give any aid. She has refused to testify and has secured counsel. A strong attempt will be made today to induce her to help find the murderer.

Atkinson Left Money.

When Mr. Atkinson died he left \$50,000 jointly to his wife and son. The son, who died just before he was twenty-one, had had life insurance for \$30,000 in his mother's favor.

Some surprise was expressed at her engagement to Mr. Hooks in May, 1900. He had been a street car conductor and a policeman, and he boasted that she had given him \$2,000 in cash and \$27,000 in securities. They were married in June, 1900.

CHILD BRIDE DIVORCED.

Married at the Age of Fourteen Without Parent's Knowledge.

BALTIMORE, Nov. 21.—A girl who was married at the age of fourteen years secured an absolute divorce yesterday in this city.

The plea in the case was abandonment. The plaintiff was Annie Wilson, of 1422 North Fulton Avenue. She was married on August 6, 1897, to Maurice S. Wilson, and they lived together six months. In court Mrs. Wilson testified that she was married without the knowledge of her parents.

Foul, Loathsome, Disgusting Catarrh—Does your head ache? Have you pains over your eyes? Is there a constant dripping in the nostrils? Is the breath offensive? These are certain symptoms of catarrh. Dr. Agnew's Catarrh Powders will cure most stubborn cases in a remarkably short time. If you've had catarrh a week it's a sure cure. If it's of fifty years' standing it's just as effective. Sold by F. S. Williams, Ninth and F Streets; Edmunds & Williams, Third Street and Pennsylvania Avenue.—12.

ART TREASURE FOR BOSTON.

Frans Hoes' "Portrait of a Woman." Bought for \$30,000.

NEW YORK, Nov. 21.—One of the best of the few genuine Frans Hoes pictures has been added to the Boston Museum of Fine Arts. It cost \$30,000. It is Hoes' "Portrait of a Woman," and was purchased from the Blakeslee galleries on Fifth Avenue, this city.

The sale has just been completed. The picture was bought after a unanimous vote of the board of trustees of the Boston Museum in favor of purchasing it. The dimensions of the "Portrait of a Woman" are forty inches by fifty inches. It was probably painted about 1650. Originally it was one of the treasures of the Duke of Buckingham's collection. Some years ago it became the property of Mrs. Whalman, of Maidstone, England, and was passed into the hands of Messrs. Lawrie & Co., of Bond Street, London, from whom Mr. Blakeslee purchased it. The portrait will hang in the main gallery of the Boston Museum of Fine Arts.

Duffy's Pure Malt Whiskey

We have thousands of testimonials from grateful patients who have been cured of Consumption by Duffy's Pure Malt Whiskey.

Gentlemen—I had a cough for three years, effects of grip and not taking proper care of myself. In April, 1898, I became so weak I was unable to work. I was examined by two physicians who told me I had bronchitis and a cough. They advised me to use Duffy's Malt Whiskey, but I was so bitter against whiskey I would not consent. By August 20th last I had gone so far as to be unable to get my breath, except with difficulty—was very low. I thought I could not live much longer. Our old physician, Dr. T. W. Campbell, of Kenney, S. C., examined my lungs and told me the right one was very bad, and the left one but a trifle better, but that I had enough lungs left to live a good while yet if I would take all druggists and grocers or direct, express paid, \$1 a bottle. Send for free medical booklet.

plenty of Duffy's Malt Whiskey, and take it regularly. By this time I was willing to do anything for relief. So the dear old man, though he is not a whiskey doctor, ordered me to begin at once with two tablespoonfuls as a dose every two hours day and night. I did so, and immediately began to improve, and now, six weeks from that time, I can breathe almost as well as I ever could, and Dr. C. says my lungs are healed, except one dull place in the right lung, and that the cavities are contracting. I do not know whether God is going to let me get well or not, but I humbly trust He will, and I believe that, under God, your Whiskey has saved my life thus far, and if I had begun a year ago I would have been cured by this time.

Respectfully,
Mrs. H. E. RIVLIN, Zeno, S. C.
Duffy's Pure Malt Whiskey is a pure invigorating stimulant and tonic.

Every bottle of the genuine bears a proprietary "V" ver. stamp.
